

### John Ganthner - RIP

John was an avid hiker, camper, bicyclist, and scuba diver who thoroughly enjoyed life with his family and friends. As an architect, he relished designing custom homes in addition to public works buildings (schools, prisons, and government offices), which can be seen throughout Nevada and California. He especially loved towing his 25-foot

Airstream trailer to campgrounds where he and his wife of 42 years could enjoy margaritas followed by afternoon and evening "wine walks" while embracing the great outdoors. He passed peacefully in his sleep December 26, 2024, at the relatively young age of 76 and is missed greatly.

Ginny Ganthner

P.S. John & Ginny's favorite camps are Washoe Lake, Walker River & Fort Churchill.
